

Playwork Training for Lunchtime Staff

A range of professional playwork training courses
specifically designed for lunchtime supervisors in
Primary Schools

We are award winning training providers who specialise in supporting play in schools. This suite of short training courses has been designed to provide professional playwork training at affordable prices for your lunchtime staff. We can also write bespoke training to suit your individual needs.

What does it include?

These professional 2½ hour playwork training courses are designed to engage lunchtime staff, build confidence and self esteem. In turn this helps to reduce time spent resolving lunchtime issues; creating positive play experiences for children. We charge £300 + travel + VAT for each training session.

Positive Interventions Part 1

The first session of this lively two part course looks at the importance on building positive relationships with children and techniques on how to make positive interventions in play.

Positive Interventions Part 2

The second session explores more in-depth strategies and techniques for making necessary interventions in children's play and how this affects relationships between adults and children.

An Introduction to Play in Schools

This fun, practical and hands-on course is an essential introduction to the importance and value of play and the benefits it can have on children's development.

Refresher Training

This course is designed for schools that already have Scrapstore PlayPods and focuses on the skills and strategies that lunchtime staff will need to support play effectively including conflict resolution, positive intervention and risk benefit assessment.

*Very motivating and enjoyable.
I feel enthusiastic about going
back to school.*
